## Doughnut

- 
1. Cut out the paper patterns and then pin them to your felt and cut the shapes. Remember to cut at the edge of the felt so that you don't waste felt!
  2. Pin the icing piece to one of the doughnut rings and overstretch them together around the wavy edge. Then have fun sewing on some beads for the sprinkles.
  3. Sew the doughnut pieces together, carefully lining them up. Use blanket stitch to sew the inner hole, and then the outer edge, leaving an opening to fill with stuffing. After you have stuffed the doughnut, continue sewing to close the hole.
